## Flat Pack Counter Screen

- Low cost flat panel sneeze screen supplied as a flat pack kit
- Keep cashiers and customers safer at the checkout
- Free standing or fixed base design and central payment hatch

This low-cost screen is designed to be placed between the customer and the cashier to help keep them safe when at the checkout. This guard is supplied as a self-assembly flat-pack kit and is made from crystal clear 3mm acrylic with rounded and polished edges for extra safety.

This portable sneeze screen is 900mm wide x 750mm high and has a 300mm x 150mm port in the front to let you take cash payments or pass the customer a handheld chip and pin card terminal. It can be folded away when not in use. Other sizes can be made to measure.

The Flat Pack Sneeze Screen can be assembled as a free-standing unit using the two slotted legs provided or can be permanently secured in place adhesive foam pads.

## Compact Counter Screen with Angled Top

- Ideal for helping protect staff at smaller counters
- Slimline design featuring angled top for greater protection from above
- Upright sneeze guard easily install using adhesive tape or screws

This Compact Screen is our most slimline model and is designed for use on narrower counters to help protect staff and customers from the spread of infection. It is made from high-quality acrylic and features a small central opening to allow customers to make their payment and has an angled top area to provide additional protection to cashiers.

At 500mm x 725mm, this screen is narrower than our other models and doesn't include side panels, so it's a better fit for tighter areas. The front opening on this sneeze screen is smaller at 150mm x 150mm and allows enough room for a chip and pin terminal to be passed through the gap. Other sizes can be custom made to measure.

This upright sneeze screen can be quickly and easily held in place using strong adhesive tape. The base is also pre-drilled with screw holes to provide a firmer fixing.

## Counter Standing Wraparound Screen + Side Panels

- Counter standing wraparound guard with front payment slot
- Angled sides protect the cashier better than a flat screen
- Single piece angled screen for extra strength and quick installation

This Counter Screen is made from a single sheet of acrylic and features angled sides to better protect cashiers and customers when checking out. Made from high-quality 3mm acrylic, this sneeze guard features rounded corners and has smooth polished edges for extra safety.

Our mid-sized screen and has a total size of around 810mm wide and 750mm high. The front panel is 500mm wide and 750mm tall, while the angled sides are 200mm wide and lean back at 35 degrees to provide additional protection and more space for the cashier. The payment slot is 300mm wide and 150mm high, so it provides plenty of room for customers to pay by cash or using a chip and pin terminal.

The base of the Screen has pre-drilled tabs on each side to add stability. All you need to install the sneeze guard is screw it into place using your own screws or secure it with a strong double-sided adhesive tape.

## Premium Counter Screen + Side panels

- Premium Screen with chrome connectors and extra wide payment slot
- A stylish way to keep your customers and cashiers safer during checkout
- Easy to assemble flat pack kit and stylish counter standing design

The Premium Counter Screen is our largest model and includes a wider payment slot and larger sides than our other models. Supplied as a flat-pack kit, this guard is assembled using stylish chrome connectors that look good and add extra strength. It's ideal for use on counters and checkouts.

This guard is 950mm wide and 900mm high and includes side panels that are 300mm wide at the base, giving it a larger area to help keep cashiers and customers safer. It also features an extra-wide payment slot which spans the full width of the screen.

The Premium Screen is quick and easy to assemble. It is designed to be screwed into place using the pre-drilled holes in the base.

## Circular Floor Stickers

300mm diameter floor stickers for various communications.

(Can be made to any size or shape).

## Large Signage

Large signage to communicate social distancing.

## Directional Signage

Signage to direct people to sanitation points.

## Social distancing - Floor, wall and seating markers

Stickers placed 2 metres apart can assist and protect employees as they queue or sit in canteens / restaurants.

## Entrance / checkout POS

Elements such as window vinyls and bollard shrouds can be placed at the entrance to educate shoppers on the correct behaviour in-store.

Elements placed around the checkout can instruct shoppers on where to stand whilst queuing.

## Roller Banner

Update-able banners to carry important customer information.

Light weight and moveable with an easily cleaned base.

## Belt Barrier

Practical barrier with retractable belt, perfect for employee queuing areas.

## Elevator Signage

Signage to appear outside elevators and social distancing markers to appear inside.

ES01

ES02

## Social distancing - Clean stencil

Placed 2 metres apart to assist and protect employees as they queue in outdoor spaces.

Could either be jet-washed or semi-permanent chalk sprayed on pavements or car parks.

## Chip and Pin Cladding

A chip and pin device cladding which encourages shoppers to use contactless pay to avoid touching the device.

This could be used in conjunction with anti-bac CTU's for shoppers who cannot avoid touching the keys.

## Shopping/Luggage Trolley

Elements that can be easily applied to shopping trolleys that can assist with hygiene and alert customers.

Information/  
awareness panels

## A-frame (A1)

A frame to contain comms about distancing, altered opening hours or any other relevant info.

## Traffic flow

One way flow of traffic where possible would help stop people having to pass in the aisles.

## Till Dividers

Freestanding till dividers measuring W:1000mm x H:2000mm to help separate and protect customers.

A clear acetate window panel allows visibility for security.

## Space Protector

FOR OFFICES, MEETING ROOMS & CANTEENS

- No installation required
- Easy to lift
- Rigid & strong
- Made from recycled pulp board
- Board fully recyclable
- Bespoke sizes available

## Checkout - social distancing floor markers

Floor stickers placed 2 metres apart can assist and protect customers as they queue for the checkout.

## Collection Points

Allowing customers to purchase items directly outside the store.

Customers pull up into a numbered bay where their order or order number is taken and a member of staff collects the desired item and completes sale with chip and pin device.

## Seat covers

Seat covers for cinemas and other public places effectively making seat 'not for use' and therefore encouraging social distancing.

Seat covers attach across the back, enabling fit to a wide variety of seating.

## Clothing

Branded re-useable apron /T-shirts.

## Pin Badges

Branded pin badges that can be cut to shape as desired, to inform of social distancing.

## Staircase Stickers

Strip vinyls to be placed in stair wells to inform of social distancing.

Contact: [hello@thedeltagroup.co.uk](mailto:hello@thedeltagroup.co.uk)

## Meeting Room Guidance Communication

Signage to appear outside meeting rooms to advise the restriction on number of people allowed inside to adhere to social distancing measures.

Blank Graphic

Example

The numbers will be magnetic to provide for flexibility within the environment.

## Screen sash

To be used on receptionist computers or in hot desk areas.

## On-Desk Messaging

A suite of on-desk messaging to encourage social distancing in the workplace.
